Choose Your Cylinder Size:

Measure your penis using the instructions below.
We will manufacture a cylinder based on the size you choose.

Please measure accurately and pick your cylinder size carefully as cylinders cannot be returned or exchanged for health reasons.

1. Wrap a string around the erect shaft near the base and mark where the string overlaps itself with a pen.
2. Lay string flat and measure the distance between the two marks with a ruler.
3. Circle your cylinder size on the chart(s) below.

Please call for help with measuring for other cylinder types.
